

EYFS intent

We believe that every child deserves an equal chance to be successful. Our curriculum is **sequenced** and **rigorous** to ensure every child can develop the skills and knowledge they need, as they move through the Early Years and into the National Curriculum. Our focus in the prime areas of learning with a particular emphasis on **communication** and **language** as the root of all learning, means that vocabulary is mapped out and progressive.

We engage with parents about learning that has taken place to ensure children get the opportunity to **revisit** important information. We share with **parents** how they can support their child to be successful and provide opportunities to learn through books and poems. We target the most vulnerable children and hold their ambition in all that we do, mapping out words and stories that enable children to grow into competent listeners and confident talkers.

Our Early Years pedagogy is a mixture of play and adult led sessions so that a child can develop appropriately for their age and stage. Our curriculum is experience rich whilst also focusing on imparting **key knowledge** children need to understand the world around them and have the foundations in **early reading** and **mathematics** to **excel**.
