

BORDESLEY GREEN PRIMARY SCHOOL

EARLY YEARS

INTENT

Here at Bordesley Green Primary School we believe that every child deserves the right to a high quality education, which gives them the skills and knowledge needed to thrive in our society.

In EY we give the children the chance to explore and become inquisitive learners where their own ideas, interests and creativity are given the opportunity to flourish. We want children to develop their confidence, self-belief and resilience so they can become independent learners. Our staff facilitate children to develop their ability to think reflectively and critically. They will be able to take on any challenge, can assess their own risks (age appropriate) and their ambitions of themselves are high.

Through our well planned, creative and engaging curriculum we provide children with the opportunities to make rapid progress from their individual starting points in a holistic manner. We offer new and exciting experiences to allow children to make links to their learning and inspire them to reach their personal aspirations.

We pay particularly close attention to the Prime Areas of learning to ensure the children have strong foundations to excel in each subject beyond the EYFS. Through our systematic and effective phonics scheme and mastery approach to maths we ensure children leave our EY setting with the key fundamental skills and knowledge needed to meet their goals.

We value our relationships with both parents and carers to ensure all children have the best start to their education. All staff strongly agree that communication is vital in order to work collectively and provide the children with a nurturing, safe and stimulating education that they deserve.

These characteristics and learning opportunities that we provide ensure that our children leave BGPS as lifelong learners and are socially and emotionally ready for the world outside of BGPS.
