

Intent for our Art curriculum

The creative arts are an important part of the curriculum at Bordesley Green Primary, of which art is a valued part.

Our children study a breadth of skills in drawing, painting, printmaking, sculpture, collage, textiles and digital media, through which they are given the opportunities to explore their creativity and imagination in a fun and engaging way. We believe art contributes significantly to the children's well-being while providing ambitious challenge through a progression of well-thought out activities, that develop their skills to a high level.

We intend that these skills and the attitudes they gain from studying art will provide them with a wealth of experiences that can be taken into their future life. Seeing creative solutions, being independent and confident to explore possibilities, drive our art curriculum forward.

Finally, we intend that the children's cultural heritage will thread through the whole art curriculum, where they can clearly see themselves. At Bordesley Green Primary "Every child is an artist".
