

Intent for our Geography Curriculum

Our Geography curriculum is designed to develop children's curiosity and fascination about the world and its people which will remain with them for the rest of their lives, equipping them well for further education and beyond.

Our children will investigate a range of places, both in Britain and abroad to help develop knowledge and understanding of the Earth's physical and human processes. We provide opportunities to investigate and enquire about our local area, this will support children to develop an understanding of who they are, their heritage and what makes our local area so unique and special. We want the children to have a love of geographical learning, gaining knowledge and skills through high quality teaching both inside and outside of the classroom. The teaching of Geography at Bordesley Green Primary enables children to develop into global citizens, who understand their role in the world (UNICEF Rights) and how their actions have an impact on the world.
